

TEA WORKFLOW FOR PRE-LICENSED, CONNECTED OR LICENSED PROJECTS

The Investor, who has been granted an associate license, connection right or license by EMRA, applies to TÜBİTAK BİLGEM for the price to be calculated over the total mechanical (MWm) power of RES based on 1100 TL per MegaWatt (MW) together with the information on the side.

- Associate / License Certificate issued by EMRA (all general and special provisions),
- Contact information of the investor (including registered e-mail address), contact point information,
- Number of Wind Turbines to be used, power, manufacturer information, brand and model information,
- Detailed physical measurements of wind turbines (including lightning rod) (computer aided design drawings of the exterior if possible),
- RES field coordinates (ED50 and WGS84 format),
- Coordinates of Wind Turbines (ED50 and WGS84 format),
- Wind turbines wing and body type of material,
- Average and maximum rotation speed and direction of the wind turbine blades
- Maximum slope of wind turbine blades,
- Electromagnetic noise measurements of the wind turbine

TÜBİTAK BİLGEM sends the Technical Interaction Analysis Report to the General Directorate of Ministry of Interior and MIT Presidency separately within 2 (two) months.

The Technical Interaction Permits prepared as a result of the evaluations made by the General Staff are sent to the EİGM within 2 (two) months.

The Technical Interaction Permits prepared as a result of the evaluations made by the Ministry of Interior are sent to the EİGM within 2 (two) months.

The Technical Interaction Permits prepared as a result of the evaluations made by the National Intelligence Directorate are sent to the EİGM within 2 (two) months.

EİGM informs the investor about the result of the Technical Interaction Analysis by General Staff, Ministry of Interior and National Intelligence Directorate

If all of the Technical Interaction Permits are positive, the investor completes the process by receiving the technical interaction analysis result from the EİGM.

In the event that Technical Interaction Permits are conditional permits, the investor sends a commitment to EİGM to accept the conditional permission.
